Malta

Dear Ms. Wismeyer,

We would like to confirm that upon successfully completing the NCUK International Foundation Year, students will be eligible to apply for our 17 English taught bachelor programs within Engineering, Architectural Technology & Construction Management, Design and Business. All students have to have high school diplomas beforehand as well as they should meet our English requirements and the specific entry requirements for the different programmes, Students should provide all the supporting documents for admission required by VIA University College and the final decision on acceptance will be made by VIA University College once the students have applied.

We will be looking forward to welcoming students who have completed the NCUK International Foundation Year.

Yours sincerely

Jonna Pedersen
Director of External Relations
